

MAINTENANCE COORDINATOR

This is a fantastic opportunity to play an integral role in NQA Group and to be part of a dynamic company responsible for management and operations of Cairns and Mackay Airports.

As a member of the Pavements and Grounds team based in Cairns, you will be responsible for undertaking and coordinating maintenance activities to contribute to the operational standards, upkeep and safety of the airport grounds, pavements, roads, drainage and associated facilities.

Suitable candidates need to have proven knowledge and experience in assessing a broad range of maintenance requirements, and staff management. Demonstrated high safety and environmental standards are a pre requisite. Candidates with pavement management experience will be highly regarded.

The successful applicant will have team supervisory experience, strong communication, time management and delegation skills, and be computer literate in Microsoft applications.

Further information on this role is available on www.cairnsairport.com.au/employment

Applications and enquiries can be directed to Nerida Mitchell - HR Manager
recruitment@cairnsairport.com.au

Applications close **12 December 2011**.
